BRIEF

Since its establishment in 1970s, Roda Jati has been offering a wide array of outdoor furniture items, including durable teakwood chairs and tables to our worldwide buyers. In fact, we are one of the pioneer manufacturers of long-lasting furniture in Central Java, Indonesia. Today, we regularly cater to foreign orders by manufacturing and exporting quality furniture products.

The secret to our success is none other than the availability of quality teak materials and the rigorous procedures that we implement in every step of production process for the sole purpose of maintaining the quality of our products.

With sincere interest to establish perpetual business relationship with anyone interested in acquiring our products, we constantly reach out for new contacts to expedite our products further in the worldwide marketplace. Contact us now for more details and get first-hand experience on our value-added service

A modern, minimalist shelving unit is centered against a dark, textured wall. The unit consists of a light-colored wooden cabinet base with two doors and two drawers, supported by two vertical black metal poles. Three horizontal wooden shelves are mounted between the poles above the cabinet. The word "METROPOLE" is printed in large, white, bold, sans-serif capital letters across the middle of the image, overlapping the shelves and the cabinet.
